Technology Center 2100

Sir:

In response to the Office Action dated February 3, 2003, please amend the above-identified application as follows:

IN THE CLAIMS:

Please enter the following amended claims:

-
- 21
1. A method for creating a compilation from a collection of content stored in a database, comprising the steps of:

presenting a plurality of selectable objects to a user, each object associated with a subset of the collection of content;

in response to selection by a user of one or more of said objects, creating a hierarchical compilation of the content associated with each selected object.
